PROFILE

Recent B.Sc. graduate with a focus on Artificial Intelligence and Machine Learning and hands-on project experience in Python-based application development. Developed SmartAgroMind AI System, an agriculture-focused application that uses machine learning to predict harvest outcomes and provide farming-related recommendations. Interested in entry-level AI/ML and Python development roles.

EDUCATION

B.Sc. Artificial Intelligence and Machine Learning
Sree Narayana Guru College, Chavadi, Coimbatore
Bharathiar University
2023–2026

SKILLS

Technical Skills

- Python, R, Java, Machine Learning, Artificial Intelligence, Deep Learning, SQL, HTML

Soft Skills

- Communication, Punctuality, Problem Solving, Teamwork, Self Motivation

INTERNSHIP

Java Programming with NLP Intern
Keltron Knowledge Centre, Palakkad, Kerala
June 2025

- Completed internship training in Java programming and Natural Language Processing.
- Gained practical exposure to NLP tools, including Stanford CoreNLP and Apache OpenNLP.
- Worked on text-processing and database-connectivity concepts using the tools covered in the internship.

PROJECTS

Smart Agromind AI System

- Developed a Python-based agricultural support application that predicts harvest outcomes using crop-specific machine-learning models.
- Implemented Random Forest models to classify predicted harvest outcomes as Good, Normal or Bad.

LiveLeaf

- Developing LiveLeaf, an agriculture-focused application for day-to-day plant growth tracking, smart farming guidance and crop management.
